TEXTILES

Inspiration is found in everyday life.

- Beth Lacefield

Lacefield Designs,
founded by Beth Lacefield in 1996,
is an artisan design house and manufacturer
based in Atlanta, Georgia.

Layering life experiences into the work,
our design team creates textiles
inspired by the human spirit, nature,
relics, and culture.

Crafting exquisitely detailed products
that enrich living spaces,
our designs begin by hand
and take shape through various mediums
— painting, pen and ink, block printing,
and paper and scissors.

 INDICATES TEXTILE IS DIGITALLY PRINTED.

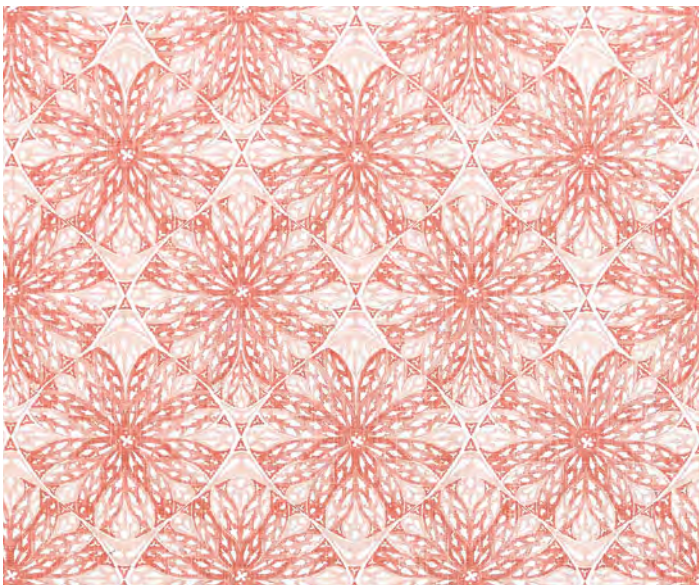

ARCHITECTURE

In the development of this line, our designers deconstructed elements of architectural design to create each pattern. Several applications of the hand were used to create a collection based on diverse inspirations within the world of architecture. “Architecture” introduces bold new colors along with our signature blues and neutrals.

TILE

In the development of this line, our designers drew inspiration from tiles and mosaics from around the world. The Tile collection features bold geometric patterns and a few traditional florals in a broad range of colors and styles. From modern multis to classic blues, this diverse line has something to offer for any personal style.

LIFE DESIGNED IN DETAIL™

&

Interior Designer and Tastemaker Holly Hollingsworth Phillips of The English Room partnered with our own Beth Lacefield to create a wildly sophisticated capsule collection of 17 textiles. Beth and Holly were inspired by travel and fueled by a passion for pattern, color, and bold combinations. Patterns in this collaboration include animal, stripes, and florals in mesmerizing detail.
