A Sense of Place

For the beauty of everyday life.

As the world begins to reopen, life takes on new cues, familiar feels, revived adjustments – & just like that, the home shifts back into its original purpose.

For that particular sense of space & place, we've looked to crafting timeless & intimate living spaces unique to those who live in them. A new sense of effortless aesthetics that harmonizes interior settings & lends to support interiors as calm, beautiful & user-friendly spaces that serve from a functional & emotional point of view.

We've considered the past to envision a hopeful future, blending gentle geometry, ancient forms, organic & enveloping shapes alongside solid wood construction, earthy & tactile materials for a lasting impact on our senses & natural affinity for home.

Surface Mode – A Material Movement

The raw, refined & resourcefulness of nature—we're designing intuitively with just that in mind. Rich top-grain leathers strapped & grounded paired with beautifully grained woods for a deeply soulful composition - the focus is on distillation & appreciation of texture + patinas that mellow with age.

Back To Hosting

An anchor for gatherings.

For building beautiful foundations, simplify the art of entertaining around new angles & striking designs made to last. The Angle dining table series pairs a crisp angular frame in solid oak with an elemental & sophisticated burst of durable marble. Alongside quiet, casual luxury, we envision dining spaces rich in meaning & intimate in feeling as we all get back to the table together again.

Room to Live In

As we shape our spaces, our spaces shape us.

Home is an extension of self-care, our snug sanctuaries where we curate comfort & joy in whatever way we can. To soften spaces, let the light in with airy neutrals, bright woodgrains, soothing greens & earth tones.

Supportive designs only leave room for harboring warm, welcoming interiors.

Streamlined Simplicity

Uncluttered aesthetic to quiet the world around us.

The Hetta coffee tables come as a solid oak or walnut five-point carousel-style base with a floating, tempered glass tabletop. Drawn from natural, grounding elements that blend well within interior settings & lifestyles, we're looking to designs that provide a sense of movement & fluidity alongside their cohesive, eye-pleasing narrative & remarkable craftsmanship.

Tanya Round Dining Table Black VE-1073-02 Douglas Dining Chair Brown EQ-1017-03

Using a special technique to draw out the detail & character of the grain, the Tanya dining table's cerused finish accentuates the open grain of the wood, giving its appearance a strong sense of contrast against the natural mango wood base.

Style & Substance

Orchestrate space to be functional, inspirational & restorative all at once.

Bring simplicity & balance with Orville's softened contemporary aesthetic & airy mix of solid elm, natural rattan & brighter cushioned upholstery. Seeking luxury & comfort? Marble & natural fibers are two time-tested trends that nestle naturally into any home environment.

Excelsior Sofa Cream JM-1009-05 Folk Round Coffee Table Light Brown BC-1117-21

Blurring The Boundaries of Art & Design

Uniting craftsmanship with made-to-last materials.

Gain calming appeal with curvilinear edges & well-considered tactility. Folke's dado joinery & solid oak construction are the well-rounded counterpart to Excelsior's bouclé touch—both are soothing to the eye & hand to create an overall relaxed & comfortable feel. For visual impact, simplicity is key with pared-down shapes in quieter palettes.

Make Yourself
at Home
& linger a little longer.

A concession to comfort, we've incorporated gentle ribbing & more fluid shapes into our upholstery pieces through expressive profiles & forms that encourage rest & rebalancing.

Nuanced & Neutral

A multilayered interior where the details remain.

Weaving in feelgood colors & materials in a fresh & exciting way evokes positive emotion. Sun-faded hues, rattan & hides used in tandem with natural & shaded woods will have interiors respond to energizing moments & grounding senses of calm while making us feel more connected with nature.

Rare Companionship

Carefree & complementary, explore artful pairings for everyday living.

Two delightfully versatile designs that embrace natural elements, modernizing beauty with function. The terrazzo-topped Mono blends sculptural lightness & the sturdiness of stone to cultivate an indoor/outdoor lifestyle, while Ventana's sought-after silhouette is met with a contrasting woven paper-fiber seat & darkened elmwood.

For artistic furniture that resonates with expressive styling, look to craft & materiality to bring a soulful spirit to any interior.
